The Punchbowl

Crashing waves. High cliffs. The wild Pacific.

Five courses built on rolling coast land and sand dunes perched 100 feet above the Pacific Ocean.

It is rare to have the opportunity to play a true links course in the US, not surprising since, according to The Links Association, there are only 5 true links courses in all of North America. Happily, for those that visit Bandon Dunes Resort, three of the five are located there (Bandon Dunes, Pacific Dunes and Old Macdonald). Bandon Dunes is unique among all locations for golf in North America. With the ocean, soil, climate, weather and even gorse, golfers seeking a true links experience arguably have four choices: Ireland, Scotland, England or Bandon Dunes. At Bandon Dunes Resort, you'll find six distinctly different courses built on a beautiful stretch of Pacific coast land and rolling sand dunes perched 100 feet above the Pacific Ocean.
